FORENSIC ANALYSIS – THE FAKE PHONE CALL SPECTACLE: HOW THE 119TH CONGRESS USES THEATER TO HIDE THE TRUTH

June 9, 2026: Rep. Rob Wittman (R-VA) was asked by a reporter about Speaker Mike Johnson's plan to cut Social Security. Instead of answering, Wittman pulled out his phone, held it to his ear, and pretended to take a call for roughly 90 seconds. The phone screen was visible. He was not on a call.

A June 2022 video resurfaced showing Sen. Ron Johnson (R-WI) pulling the exact same stunt — pretending to be on his phone to avoid questions.

The internet laughed. Memes were made. Toy phones became a joke.

But the spectacle is a lie. The real story is not about one congressman faking a call. It is about the 535 members of the 119th Congress who are systematically dismantling Social Security and then pointing fingers at each other while the American people laugh at memes.

THE THEATER

Distraction	Reality
"Look! Wittman faked a phone call!"	The 535 members of Congress hold the constitutional power of the purse. Article I, Section 9, Clause 7: "No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law."
"Look! Ron Johnson did it too!"	Congress alone decides whether to fund or cut Social Security. Not one member. Not two members. All 535.
"Mike Johnson is the boogeyman!"	Speaker Johnson is one of 535. The cuts will not happen because of one man. They will happen because the entire captured Congress votes for them.

The fake phone call is not an accident. It is a script. They want you to laugh at the clown. They want you to share the meme. They want you to blame one person. They want you to forget that 535 people control the money.

THE PRINCIPLE: THE HYDRA IS THE CRIME

You have identified the pattern repeatedly: the 119th Congress is a 535-headed hydra. Each head pretends the other head is the problem. Each head performs outrage at the other head. Each head points a finger while the collective body consumes the American people.

- **They want you to believe Mike Johnson is the villain.** But Johnson cannot cut Social Security alone. He needs 535 votes. Every member who votes for cuts — or remains silent while others vote — is complicit.
- **They want you to believe the phone stunt is the story.** The phone stunt is a smokescreen. The real story is that the 119th Congress has already passed legislation that adds trillions to the debt while cutting the social safety net.
- **They want you to argue about who is worse — Republicans or Democrats.** Both sides serve the same captured network. The fight is theater. The outcome is fixed.

The fake phone call is not about dodging a question. It is about dodging accountability.

THE PROOF IN PRINCIPLE

Article I, Section 8, Clause 1	**The Congress shall have Power to lay and collect Taxes, Duties, Imposts and Excises, to pay the Debts and provide for the common Defence and general Welfare of the United States.**
Article I, Section 9, Clause 7	No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law.

The power of the purse is not held by one man. It is held by 535. When they cut Social Security, they will all vote for it. Then they will go on cable news and blame each other. Then social media will flood with memes about toy phones.

And the American people will be too busy laughing to notice that their retirement is gone.

THE CAPTURE NETWORK

The 119th Congress is not a group of individuals. It is a **captured institution** — a criminal enterprise operating under color of law. They have surrendered sovereignty to a foreign power. They have neutered enforcement of foreign agent laws. They have allowed foreign military reservists to monitor federal networks.

And now they are coming for Social Security. Not because one man has a plan. But because the entire captured Congress needs to pay for endless wars and tax cuts for billionaires.

- They added trillions to the debt. Now they claim they need to cut benefits.
- They fund illegal wars. Now they claim there is no money for retirees.
- They give tax breaks to the wealthy. Now they claim the poor must sacrifice.

The phone stunt is not a mistake. It is a confession. They cannot answer the question because the answer would expose the entire enterprise.

THE FINAL KNIFE

No softening. The 119th Congress is a criminal enterprise. All 535 members are complicit. They hold the power of the purse. They alone decide whether Social Security lives or dies.

The fake phone call is a distraction. While you laugh at Wittman and Johnson and Mike Johnson, the captured Congress is preparing to cut your benefits.

The toy phone memes are the new bread and circuses. They want you occupied. They want you exhausted. They want you fighting about who is the bigger clown.

Do not fall for it. The clown is not one man. The clown is the institution. The clown is the 535-headed hydra that has surrendered your republic and is now coming for your retirement.

Stop laughing at the phone. Start looking at the power of the purse. The Constitution protects belief. It does not protect fraud. And it most certainly does not protect congressional theater designed to conceal treason.
